### REASONS FOR ALLOWANCE

1. This Office Action is responsive to the Amendment filed on 9/29/04.
2. Claims 1, 2, 4 and 6-11 are allowed.
3. The following is an examiner's statement of reasons for allowance:

References (5850392), (6674765), (6625138), (6542493) and (6466565) are additionally cited because they are pertinent to the claimed invention.

Regarding to claims 1, 8 and 9, none of prior art of record teaches or suggests the claimed invention. Esmailzadeh et al (6,163,533), previously-cited, teaches the invention except he fails to teach the limitation "signal selector means arranged to select from the candidate signals one or more signals in accordance with a predetermined criterion, in which the-determined criterion is the distance of a candidate signal from the finite alphabet". It would not have been obvious for one skilled in the art to implement Esmailzadeh et al, in view of other prior art of record, in order to make such an implementation leading to the claimed invention.

Regarding to claim 10, none of prior art of record teaches or suggests the claimed invention. Esmailzadeh et teaches the invention except he fails to teach the limitation "signal selector means arranged to select from the candidate signals one or more signals in accordance with a predetermined criterion, in which the-determined criterion is the mean square error of the candidate signals". It would not have been obvious for one skilled in the art to implement Esmailzadeh et al, in view of other prior art of record, in order to make such an implementation leading to the claimed invention.

Regarding to claim 11, none of prior art of record teaches or suggests the claimed invention. Esmailzadeh et teaches the invention except he fails to teach the limitation "a

plurality of captured signal estimators arranged to receive the selected signals and having outputs connected to a different signal selector operative to eliminate signals which are duplicated". It would not have been obvious for one skilled in the art to implement Esmailzadeh et al, in view of other prior art of record, in order to make such an implementation leading to the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
